

Amendments to the Claims:

This listing of claims replaces all prior versions and listings of claims in the application:

Listing of Claims:

1. (Currently Amended) A method ~~of determining a recording schedule for a PVR system with resources,~~ comprising:
  - receiving one or more ~~a first user~~ inputs, the one or more inputs requesting ~~zero or more~~ recording of one or more of a plurality of jobs;
  - determining one or more solutions for each of the plurality of ~~zero or more~~ jobs based on a transmission schedule, each solution requiring a set of resources over a set of intervals, wherein one or more combinations of solutions for the plurality of jobs require a number of resources ~~required is~~ greater than a number of resources available at a particular interval, resulting in a scheduling conflict; and
  - resolving the scheduling conflict including automatically determining one or more plans for performing jobs, each plan having a combination of solutions including a particular solution for each of the plurality of jobs, zero or more jobs wherein resources used by the zero or more plurality of jobs for the combination of solutions in each plan are less than or equal to the number of resources available at each interval; and
  - using a specified plan of the one or more plans to determine a recording schedule for a personal video recorder system.
2. (Original) The method of claim 1, further comprising:
  - receiving a priority for each job from a user.
3. (Original) The method of claim 1, further comprising:
  - assigning scores to the one or more plans.

4. (Original) The method of claim 3, further comprising:  
automatically determining a preferred plan based on the assigned scores.
5. (Original) The method of claim 4, further comprising:  
the step of assigning scores includes assigning scores based on a user assigned  
priority for each job.
6. (Currently Amended) The method of claim 4, further comprising:  
the step of assigning scores includes assigning scores based on components of  
each of the ~~zero or more~~ plurality of jobs.
7. (Original) The method of claim 3, further comprising:  
ranking the one or more plans based on the assigned scores.
8. (Original) The method of claim 1, wherein:  
the step of determining one or more plans includes determining two or more  
plans.
9. (Original) The method of claim 1, further comprising:  
automatically determining a preferred plan based on scores, wherein the scores  
are based on components of each of the jobs, the components including at least one element  
selected from the group including a recording time, a recording quality, a type of program, a  
relative position in an order a job of the two or more jobs was input, an inclusion of bonus time  
and a keyword.

10. (Currently Amended) The method of claim 1, further comprising:  
receiving a trigger;  
in response to receiving the trigger, determining one or more new solutions for the ~~zero or more~~ plurality of jobs; and  
determining a new plan including one new solution for each job such that the solutions use less than or equal to the number of resources available.
11. (Currently Amended) The method of claim 10, wherein:  
the step of receiving the trigger includes receiving an updated schedule from an input source.
12. (Currently Amended) The method of claim 10, wherein:  
the step of receiving the trigger includes receiving an updated transmission schedule from an input source, the input source selected from a group including a satellite signal, a cable signal, an antenna signal, and a telephone line signal.
13. (Currently Amended) The method of claim 10, wherein:  
the step of receiving the trigger includes receiving a ~~second~~ user input.
14. (Currently Amended) The method of claim 1, further comprising:  
providing a user with the two or more plans; and  
receiving a ~~second~~ first user input that indicates a preferred plan.
15. (Currently Amended) The method of claim 14, further comprising:  
determining from the ~~second~~ first user input a user priority for at least one job.

16. (Currently Amended) The method of claim 15, further comprising:  
receiving a ~~third~~ second user input adding a new job;  
determining one or more new solutions for the new job; and  
determining a new plan including one of the one or more new solutions, wherein  
determining the plan is based in part on the ~~second~~ first user input.

17. (Original) The method of claim 1, wherein:  
the step of determining one or more plans includes determining the one or more  
plans based on a pre-defined user preference.

18. (Original) The method of claim 17, further comprising:  
filtering the one or more plans including keeping a first plan for presentation to a  
user and ignoring a second plan so that the second plan is not presented to the user.

19. (Currently Amended) The method of claim 18, wherein:  
the first plan has a first set of solutions for the ~~zero or more~~ plurality of jobs and  
the second plan has a second set of solutions for the ~~zero or more~~ plurality of jobs, wherein at  
least one solution for at least one job of the first set of solutions is preferred over a corresponding  
solution for the at least one job of the second set of solutions.

20. (Original) The method of claim 17, further comprising:  
scoring the one or more plans based on the pre-defined user preference; and  
filtering the one or more plans such that at least one plan with a higher score than  
other plans of the one or more plans is presented to a user and at least one plan with a lower  
score than other plans of the one or more plans is not presented to the user.

21. (Original) The method of claim 1, further comprising:  
presenting the one or more plans to the user.

22. (Original) The method of claim 21, wherein:

presenting the one or more plans to the user includes presenting the plans in a first category and a second category, the first category including zero or more plans having no null solutions and the second category including zero or more plans having at least one null solution.

23. (Currently Amended) The method of claim 1, wherein:

the step of receiving the one or more inputs requesting a first user input request  
~~zero or more~~ the plurality of jobs includes receiving an input request to record a program.

24. (Currently Amended) The method of claim 1, wherein:

the step of receiving the one or more inputs requesting a first user input request  
the plurality of ~~zero or more~~ jobs includes receiving an input request to accomplish a task.
